

Maintenance excellence for sustainable development

Experience
Knowledge
Innovation

Now in its forty second year, EUROMAINTENANCE Conference & Exhibition is recognized as the must attend event for the international maintenance industry. As Europe's largest maintenance conference EUROMAINTENANCE offers unrivalled networking opportunities with a dedicated and diverse trade show floor and a multi-track conference.

The 2012 event in Belgrade takes **Maintenance excellence for sustainable development** as its theme and will focus on important issues of our community with purpose to stimulate reflection and debate on both the challenges and the solutions.

CALL FOR SPEAKERS

SUBMIT AN ABSTRACT FOR EUROMAINTENANCE 2012

We are now inviting potential speakers to submit their proposals for consideration by the EuroMaintenance 2012 Advisory Committee. Individuals and organisations from different types of industry and commerce, operating at the forefront of the international maintenance markets are encouraged to submit proposals.

Why submit?

As a speaker at this prestigious conference you can expect:

- Enriched professional profile
- Recognition from colleagues worldwide
- Highly motivated, professional audience of more than 700 maintenance managers, operations managers, reliability engineers and other maintenance experts from all European countries and worldwide
- Chosen paper will be eligible for a prestigious EUROMAINTENANCE Best Paper Awards: a main award and two "highly commended" certificates for the best papers from each track will be presented at the closing reception in Belgrade.
- Exciting mix of high profile plenary presentations, panels, industrial visits and moderated discussions.
- Business networking opportunities

Address what you consider to be Maintenance issues in Belgrade by submitting an abstract that you would like to be presented at the next EUROMAINTENANCE Conference. We look forward to receiving your proposals.

EUROMAINTENANCE independent expert Advisory Board is responsible for setting the conference themes and suggested topics and for selecting papers to be included in the programme. The Board represents a wide cross section of the industry and gathers experienced professionals from leading European utility companies, equipment suppliers, manufacturers, service providers, associations and consultancies. This is a conference created by the industry, for the industry.

EUROMAINTENANCE 2012 IS A MUST FOR EVERYONE DEDICATED TO INDUSTRIAL MAINTENANCE!

ABSTRACT DEADLINE: June 15th 2011

*Chosen papers will be eligible for
EUROMAINTENANCE's prestigious Best Paper Awards*

Speakers will have full and free access to the conference. Euromaintenance 2012 does not reimburse travel and accommodation expenses for speakers during the conference

Maintenance excellence for sustainable development

I am pleased to welcome you to biggest exchange market of maintenance knowledge and meet experts and world class maintenance managers that will present how to improve your business while improving maintenance techniques. Learn to avoid common traps, implement proper maintenance, decrease total cost and all with accent on environmental safety. It doesn't matter what

level of experience you have with maintenance, there is something here for everyone and always more than you expect.

In order to ensure high level of conference we did our best in: gathering together top speakers and best practice cases from around the world, presenting different types of industry covering all aspects of maintenance & asset management and presenting innovative concepts and information ready to use.

One of the most important maintenance value driver is SHE (Safety, Health & Environment). The importance of the SHE value driver becomes obvious when looking at the recent incidents with the Oil Spill in the Gulf of Mexico and Red Mud in Hungary. These two biggest environmental disaster caused massive damage to the environment.

According to all that, key requirement for maintenance is Sustainable Development. The motto is "Ensuring a better quality of life for everyone, now and for generations to come". Sustainable Development in the maintenance sector will significantly contribute to the development of sustainable communities in the whole world. I look forward to welcome you at Euromaintenance 2012. I am sure that your stay in Serbia will be enjoyable and professionally profitable. Don't miss this unique opportunity!

Miloš Petrović, Conference President

In Belgrade you'll have plenty of opportunities to meet hundreds of high level maintenance and asset managers. This will be unique opportunity to meet some of the most important industrial companies in Serbia and beyond.
